#### REMARKS

Responsive to the Examiner's action of July 6, 1995, the specification has been amended with respect to the changes in the drawings proposed in the attached Letter to the Official Draftsperson, responsive to the Examiner's objections to the drawings. The drawings have been renumbered in response to the Examiner's objection that FIGURES 3A and 3B needed to be shown as separate figures. Although FIGURES 3A and 3B were separate figures, this may not have been clear due to the numbering of the figures. Legends indicating figures as prior art have also been added as requested by the Examiner, and reference numbers 52, 54, 56, 58 have been inserted as requested by the Examiner. Reference number 10 has been added to FIGURE 1, and minor clarifications of the reference number 86 and the figure number have been added to the last figure, now FIGURE 11. All of these changes are marked in

red ink for the approval of the official draftsman, in accordance with MPEP 608.02(r).

It is respectfully submitted that the submission of the proposed corrections to the drawings is a bona fide attempt to respond to the Examiner's objections to the drawings, under 37 C.F.R. 1.135(c). It is respectfully requested that if some matter or compliance with the Examiner's requirements has been omitted from the proposed correction of the drawings, that the Examiner contact the undersigned immediately to supply any such omitted correction.

The Examiner also raised a requirement for election of a species among the species as grouped by the Examiner, namely FIGURES 1 to 5; FIGURE 6, FIGURE 7, FIGURE 8, and FIGURE 9. Applicant elects the species of the general FIGURES 1 to 5, excluding the prior art figures, so that the figures as now renumbered which are selected comprise FIGURES 1, 3, 5, 6 and 7. It is believed that the claims which are currently readable upon the species elected are claims 1, 3 through 10, 12 through 17, and 19 to 21.

Serial No. 08,316,422

PATENT

In light of the foregoing amendments and remarks,  
favorable reconsideration of the application is respectfully  
requested.

Respectfully submitted,

FULWIDER PATTON LEE & UTECHT
